OUR FOCUS

01 **Connected to the Ministry of Defense**

Early-stage Israeli companies working with the Israeli Ministry of Defense on real defense needs.

02 **Capital before the VC round**

Founders seeking early backing from angels and family offices, before institutional venture funding.

03 **More than one path to growth**

Teams that bootstrap or pursue non-traditional investors as they build their companies.

04 **Exceptional teams**

Charisma, ambition and resilience. We work closely with founders from across Israel's military units, especially special forces and tech units.

About The Sandbox · Israel's nonprofit hub for defense tech entrepreneurs. We help founders tackling missions critical to Israel turn important problems into prototypes, startups and opportunities for growth.
